THE CATTLE MARKET.—The cattle market in the cities is peculiar. Extra fat butchers' stuff is bringing nearly as much as export cattle. Extra export cattle from 1,400 lbs. up are quoted at \$4.50 to \$5, and extra fat butchers' steers and heifers are quoted at \$4 to \$4.65.

FLEMINGSBURG COURT.—W. W. Rodgers, of Reynoldsville, was at Flemingsburg Court Monday.

He reports the cattle market better than on the previous Court day. Some 400 to 500 were offered. Trade in mules and horses was brisk and prices well maintained. He bought a horse for \$65 and one for \$75.

TO CHANGE R. F. D. ROUTE SOMEWHAT.—There is much dissatisfaction on the part of the people in the Reynoldsville neighborhood with the rural free delivery route out from Sharpburg that a petition is being circulated and largely signed to have the carrier come on to Owingsville and take the mail direct to Reynoldsville. As it is now their mail goes from here around by Mt. Sterling to Sharpburg and is sent out from that place, making it some days longer in reaching the people than if it went from here.

We sell the Leader cook stove, White sewing machine, Chattanooga chili, "P. & O." chili and Avery steel plows; either will please you. BROTHUR & CO.

DELETED THE MAIL.—Owing to the snowdrift on the ridge rendering the White Oak turnpike impassable Mail-carrier Freeman did not make his daily trips on Tuesday, Wednesday and Thursday. On Friday he made it on horseback.

LAST DIVIDEND.—The affairs of the Bluegrass Building and Loan Association, of Lexington, are to be wound up with a final dividend of 2.7 per cent. to the stockholders, making a total of 77.7 per cent. paid. There are a number of local stockholders.

HURT BY FALL.—On last Thursday morning John T. Kimbrough when he reached his drug store found that he had left his key at home. He went to the rear of the store and raising a window started to climb in. His foot caught on the window sill and he fell, severely injuring his leg. He, however, is able to be at his place of business.

TO BUY A CORK LEG.—A man by the name of Jones, from near Beattyville, Lee county, was in town Saturday soliciting contributions with which to buy a cork leg, one of his limbs having been amputated at the knee from a wound caused by the accidental discharge of a pistol dropped by Jones. He had secured thirty odd dollars, the amount necessary being fifty dollars.

FINE TOBACCO.—At the Maysville Tobacco Fair D. W. Reed, representing the Louisville Warehouse Co., bought at public auction, bidding against a Cincinnati man, 185 lbs. of cigarette tobacco at \$1.02 per pound, and 200 lbs. of bright leaf at 31c. Cincinnati bought 140 lbs. of lugs at 40c and 170 lbs. of red leaf at 25c. These were samples exhibited at the Fair and will be taken as a part of the Kentucky exhibit to the St. Louis Exposition.

PROBABLE CASES OF SMALLPOX AT OLYMPIA.—Late Monday night Dr. S. C. Alexander telephoned for Dr. A. W. Walcott to come to Olympia, and also summoned Dr. H. S. Pierce, of Salt Lick, in order to consult on the cases of Mrs. Richard Costigan and little son, whom Dr. Alexander diagnosed as suffering with smallpox; that is, he said he wouldn't say positively they had smallpox, but if that wasn't the disease he didn't know what it was.

WILLIAMS-WARREN WEDDING.—On Wednesday, Feb. 18th, Elder William A. Williams and Miss Lizette Warren went down to Lexington and were united in marriage by Elder J. W. McGarvey at his residence at 5 o'clock p. m.

Mrs. and Mrs. Williams passed through this town Thursday on their way home.

The bride is a pretty young lady, the daughter of James Warren, Jr., deceased. Her mother is now the wife of John P. Copher, of Olympia, where the bride has been living. Mrs. Williams is highly popular in the social circles of Olympia.

The bridegroom is the son of the late Joseph A. Williams, of near Forge Hill. He educated himself for the ministry of the Christian Church, attending the Bible College of the Kentucky University, Lexington. He has been the pastor of the State Valley Church for some time and has preached throughout this section with eminent satisfaction to the members of his denomination. He is a superior young man, with a promising future. He and his pretty bride are receiving the hearty congratulations of innumerable friends.

A. T. BYRON, R. GUDGELL, G. C. EWING.

GEORGE O. BARNES.—George O. Barnes, the famous evangelist, preached nightly at the Court-house from Tuesday night of this week to Monday night of this week.

The attendance increased each night and more and more ladies came. He preached at the Christian Church Sunday morning and at the Court-house Sunday afternoon. He is said to display the same intense earnestness of his former years. The people here undoubtedly delight to hear him, and there was also eagerness to hear him on John Alexander Dowie, of Chicago, who claims to be the Prophet Elijah reincarnated. Mr. Barnes reserved the subject of Dowie until Sunday and Monday nights, when he supported Dowie's claims with characteristic frankness. As ever, original, bold and startling to people who readily accept a prophet at his own valuation, he created some consternation by setting a period for the world to come to an end—about two years hence. A number of his utterances on this subject were disquieting to those under the spell of his eloquent zeal.

Mr. Barnes says he has already preached in nineteen counties of Kentucky on this tour and expects to go from here to Washington City to rest a while, then return to complete the tour by preaching in every county, which will occupy his time for the ensuing two years. He says that in only two of the counties has he been entertained at private houses—in Spencer county at Taylorsville by Edgar Bourne, an ex-Owingsville man, and in this county, moreover, the people in this town have been more liberal

in contributions than elsewhere.

Except on the subject of Dowie, his hearers, as has always been the case, felt the keenest interest in his preaching and expressed themselves warmly by his enthusiasm.

KENTUCKY AT THE ST. LOUIS WORLD'S FAIR.—The good example set by Jefferson and Carroll counties in making liberal appropriations to the \$100,000 fund being raised by the Kentucky Exhibit Association will probably be followed within the next month by several counties. A number of auxiliaries of the Association have had the matter under consideration for some weeks, but could not present their case until the regular meeting of their fiscal court. During March seven or eight fiscal courts of the State will meet in April, or ninety fiscal courts convening early in the fourth month of the year. President A. Y. Ford, of the Exhibit Association, as Chairman of the General Finance Committee of the organization, which has given its unanimous approval of the plan, is directing this work and has able lieutenants in nearly every county in the State. It is believed that quite a handsome sum will grow out of this effort to have the fiscal courts make appropriations. The contribution from the Carroll county body is on a basis of one-twentieth of one per cent. of its taxable property. Should this ratio apply all over the State Kentucky could have at the World's Fair a building and a display of her products and resources that would eclipse any other State in the Union, with the possible exception of Missouri, which has appropriated one million dollars.

The Building Committee of the Kentucky Exhibit Association spent two weeks wrestling with the twelve designs submitted by architects in the Kentucky Building competition before it arrived at a decision. In all there were 102 drawings presented, including all the different elevations, floors, etc., and the Committee had its hands full in reaching a conclusion in a fortnight. All of the designs submitted were strikingly original and no mistake would have been made had the decision been reached by a jury of the most discerning. The drawing chosen as the best of the whole number will not be made public for several days, because the committee will doubtless suggest several changes thereto. It does not want the public to see the design until it is drawn exactly as it will appear at the World's Fair. Then every paper in the State will be furnished a large cut of the perspective and Kentuckians can applaud the result of the labors of the Building Committee.

It is practically settled now that Kentucky will have 5,000 square feet of space for its tobacco exhibit at the World's Fair. Mr. Frederic W. Taylor, Chief of the De-

partment of Agriculture of the exposition, has promised Mr. Chas. D. Campbell, Chairman of the Tobacco Exhibit Committee of the Kentucky Association, to make that reservation for Kentucky.

Mr. Campbell has appointed two sub-committees of his general committee. Messrs. Dan Peed, of Paris; and A. P. Barnard, and Frank Harpring, of Louisville, will pass on all Bureau matters before they are brought to the attention of the general committee.

Messrs. George Ligon, of Mayfield; and E. J. O'Brien and Joseph Robinson, of Louisville, will act in a similar capacity for Dark tobacco.

Col. Lon B. Nall, Chairman of the State Committee on Agricultural and Horticultural Exhibits, has called the first meeting of his committee for Thursday and Friday, March 5 and 6, at Louisville. Rules and regulations governing the collection of the various classifications under agriculture and horticulture will be adopted at that meeting for immediate promulgation, each sub-committee in every county in the State being furnished with them. The meeting will be held two days, because there is so much to do for the committee to consider and act upon.

Kentucky will have 6,000 square feet of space in the Mines and Metallurgy Building at the World's Fair—four times as much as at Chicago. This for coal, crude oil, stone, ores, clays, etc.; 2,500 in the Educational Building; 4,000 in the Agricultural Building independent of space for tobacco, whisky, etc.; 5,000 for its tobacco exhibit; 3,000 in the Forestry exhibit; as much space as it wants in the live stock exhibit; 2,000 for its whisky exhibit; 3,000 in the Horticultural building; Kentucky manufacturers will have many attractive displays in the Transportation, Liberal Arts, Machinery and Manufactures Buildings.

Kentucky will have a State Building at the World's Fair next year that will be admired by the millions who see it and the thousands who enter it, and that will be a source of great pride to every Kentuckian and former Kentuckian.

Every cent of the \$100,000 subscribed will go towards getting together and installing all the collective exhibits of Kentucky and erecting the Kentucky building.

OBITUARY.—Died, of an abscess, Feb. 21st, 1903, Nettie Meey Dawson, of color, aged seven months and five days, daughter of Louisa and George Dawson. She leaves a mother, father, a grandmother, two sisters, five brothers and many relatives to mourn their loss.
